About Expedition: Joy

Expedition: Joy is a Singapore-based non-profit founded by two students who are passionate to serve children who reside in **children's homes or orphanages.**

We want to make a difference to the community by **servicing** the parts of the committee that tend to be overlooked. **Everyone deserves to feel special;** Expedition: Joy will facilitate activities such as birthday parties to **make a child's day.**

This would be conducted monthly, ensuring **every child** gets their **birthday celebrated** at a special place.

What is an Expedition?

Exhilarating trips to various places accompanied by students and adult volunteers.

It is our promise to the children that the trips would not only **spark joy** in their lives, but also serve a meaningful purpose.

During events, we aim to expose children to **different experiences** and **broaden their horizons**. Everyday is an **opportunity to learn**; even on birthdays.

Following the main events, we would conclude with a birthday celebration for the children to **end off with a bang!**

Why Sponsor Us?

Photo by Gaelle Marcel on Unsplash

Your sponsorship is **vital** to us as it will not be possible to host monthly **birthday parties** without costing a large sum.

All our transactions are **public** and we are **fiscally sponsored** by **The Hack Foundation, a 501(c)(3) non-profit**.

By sponsoring us, in return we'll be happy to include your company's logo on our website and materials.

Donate money: This is the easiest way to support us as everything from renting a venue, to purchasing gifts and food.

Provide in-kind sponsorships: Providing tickets to a venue or Sending your company's product or swag as gifts would alleviate some of our costs and enable you to promote your products at the same time.

How Can You Help?

Dylan Tan
Founding partner

Dylan Tan is currently a JC1 student at **Anglo Chinese School (Junior College)**.

Part of the **podium finishing** ACJC tennis team, he is a **tennis** player and has a variety of hobbies including playing the **piano**.

He has also hosted multiple high-impact events in school to promote **computational literacy**.

His proactive approach has made him part of multiple **organising** teams of service projects in and out of school.

Aarav Malik is currently a JC1 student at **Saint Joseph's Institution**.

He has **independently organised** an **international** hackathon with more than **270** participants and **multiple** sponsors.

Within school, he has **organised** multiple service projects, fundraisers and competitions, partnering with multiple non-profits.

He also has a **variety** of hobbies ranging from coding to **international affairs** to multiple **sports**.
